

Adyapan School

Gen AI & Data Analytics

Duration - 3 months

**Industry
Certification**

Skill India Certified

**250+
Partner Companies**

Go beyond **analysis** Create **solutions.**

From data to intelligent systems; become industry-ready.

This immersive Gen AI & Data Analytics program takes you beyond foundational concepts into real-world, AI-driven decision-making. Learn data analysis, visualization, machine learning fundamentals, and generative AI techniques such as prompt engineering and model integration through hands-on projects and guided workflows. With a strong focus on practical implementation and business use-cases, you'll graduate with the ability to extract insights from data, build AI-powered solutions, and drive impact using modern analytics and generative technologies.

ABOUT ADYAPAN SCHOOLS

Where education meets real-world impact

Not just a course — a platform to launch
your career.

Adyapan Schools was built with a single conviction:
learning works best when it happens in the real world.
We partner with top companies, mentors, and industry
platforms to ensure every student graduates with a
portfolio of work that speaks louder than a certificate.

Our programs combine rigorous coursework with live
client projects, giving you the skills and proof-of-work
that employers actually want.

MISSION

To equip ambitious learners with
practitioner-level digital
marketing skills through mentor-
led, project-based education that
bridges the gap between learning
and earning.

VISION

To be India's most trusted
launchpad for the next generation
of marketing leaders — defined
not by degrees but by the real
work.

Everything you need to grow fast

PROGRAM HIGHLIGHTS

Live Industry Projects

Work on campaigns for real brands alongside your coursework. Build portfolio projects that prove your expertise to employers.

1-on-1 Mentorship

Dedicated mentors from Google, Microsoft, Mastercard and more. Get personalized guidance and industry connections.

AI-Powered Marketing

Learn cutting-edge AI tools alongside evergreen fundamentals. Stay ahead of the curve in a rapidly evolving landscape.

Dual Certification

Earn both a Course Completion and Internship Certificate – accredited by Skill India Digital Hub and NSDC.

Internship Guarantee

Graduate with an internship completion certificate from a live brand project. Concrete, resume-ready proof of work.

Industry Network

Join a network of alumni at Amazon, Google, Adobe, Microsoft. Access exclusive hiring events and referral opportunities.

12 weeks. 12 modules. Infinite impact.

WEEK 1

Data Analytics & AI Fundamentals

- Discussion of Curriculum
- Basics of data analytics and data-driven decision making
- Types of analytics: Descriptive, Diagnostic, Predictive, Prescriptive
- Introduction to Generative AI and how it intersects with analytics
- AI ethics and responsible use of AI in data contexts.

WEEK 2

Python for Data & AI

- Python basics for analytics and AI development
- Core libraries: Pandas, NumPy
- Working with datasets and data types
- Introduction to machine learning concepts relevant to analytics
- Data preprocessing basics

WEEK 3

SQL for Data Analytics

- Introduction to databases and relational models
- SQL queries: SELECT, WHERE, GROUP BY, ORDER BY
- Joins and aggregations
- Data extraction from databases
- Using AI-assisted tools (e.g., natural language to SQL) to accelerate querying

12 weeks. 12 modules. Infinite impact.

WEEK 4

Data Cleaning & Preparation

- Handling missing values and outliers
- Data transformation and validation techniques
- Introduction to ETL concepts
- Using Gen AI tools to automate
- Accelerate data cleaning workflows

WEEK 5

Exploratory Data Analysis (EDA)

- EDA methodology and statistical thinking
- Data profiling and pattern recognition
- Correlation and distribution analysis
- Leveraging LLMs to generate EDA summaries
- Surface insights from raw data

WEEK 6

Large Language Models for Analytics

- Understanding how LLMs work
- Prompt engineering fundamentals specifically for data tasks
- Using LLMs for report generation, insight narration, and business summarization
- Automating analyst workflows with chatbot-style interfaces over data

12 weeks. 12 modules. Infinite impact.

WEEK 7

Large Language Models for Analytics

- Understanding how LLMs work
- Prompt engineering fundamentals specifically for data tasks
- Using LLMs for report generation, insight narration, and business summarization
- Automating analyst workflows with chatbot-style interfaces over data.

WEEK 8

Generative Models & Deep Learning Basics

- Neural network basics and deep learning frameworks
- Introduction to generative models: VAEs and GANs
- Applications of generative models in synthetic data creation for analytics
- When and why to use synthetic data in real-world analytics projects.

WEEK 9

AI-Augmented Analytics Workflows

- Building AI-powered analytics pipelines
- API integration for generative models (OpenAI, Gemini, etc.)
- AI automation workflows for repetitive analytics tasks: data ingestion, transformation, and reporting
- Performance optimization of AI-assisted pipelines.

12 weeks. 12 modules. Infinite impact.

WEEK 10

Business Analytics & AI Case Studies

- KPI analysis and business metrics
- Customer analytics and sales analytics with AI assistance
- Market trend analysis using LLM-enriched data sources
- Real-world case studies where Gen AI enhanced analytics outcomes
- Predictive and prescriptive analytics with AI tooling

WEEK 11

Generative AI for Images & Unstructured Data

- Analyzing unstructured data: text, images, PDFs using AI models
- Sentiment analysis and NLP-based analytics
- Diffusion model basics and AI media analytics
- Extracting structured insights from unstructured business documents

WEEK 12

AI Agents & Advanced Prompt Engineering for Analytics

- Advanced Prompt Engineering for Data Work
- Building a Data Analytics Agent
- Evaluating & Governing AI Agent Outputs

WHO THIS IS FOR

This course is perfect for

Students & Career Switchers

Aspiring Data Analysts

Entrepreneurs

Management Professionals

Business Analysts

Software Developers

CERTIFICATIONS

ALUMNI NETWORK

Our alumni work at world-class companies

Amazon

Adobe

Google

Autodesk

Microsoft

Deloitte

Your career switch is one click away.
