

Adyapan

School

SAP ABAP

Duration - 2 months

**Industry
Certification**

Skill India Certified

**250+
Partner Companies**

Create **impact** at scale with **SAP ABAP** skills.

From enterprise systems to real-world impact - become industry-ready.

This immersive 8-week SAP ABAP program takes you beyond foundational concepts into real-world enterprise application development. Learn core ABAP programming, SAP system architecture, module pool development, and business process integration through hands-on projects and guided case studies. With a strong focus on practical implementation and consulting-oriented skills, you'll graduate with the ability to build scalable SAP solutions, optimize business workflows, and confidently contribute to enterprise-level digital transformation initiatives.

ABOUT ADYAPAN SCHOOLS

Where education meets real-world impact

Not just a course — a platform to launch
your career.

Adyapan Schools was built with a single conviction:
learning works best when it happens in the real world.
We partner with top companies, mentors, and industry
platforms to ensure every student graduates with a
portfolio of work that speaks louder than a certificate.

Our programs combine rigorous coursework with live
client projects, giving you the skills and proof-of-work
that employers actually want.

MISSION

To equip ambitious learners with
practitioner-level digital
marketing skills through mentor-
led, project-based education that
bridges the gap between learning
and earning.

VISION

To be India's most trusted
launchpad for the next generation
of marketing leaders — defined
not by degrees but by the real
work.

Everything you need to grow fast

PROGRAM HIGHLIGHTS

Live Industry Projects

Work on campaigns for real brands alongside your coursework. Build portfolio projects that prove your expertise to employers.

1-on-1 Mentorship

Dedicated mentors from Google, Microsoft, Mastercard and more. Get personalized guidance and industry connections.

AI-Powered Marketing

Learn cutting-edge AI tools alongside evergreen fundamentals. Stay ahead of the curve in a rapidly evolving landscape.

Dual Certification

Earn both a Course Completion and Internship Certificate – accredited by Skill India Digital Hub and NSDC.

Internship Guarantee

Graduate with an internship completion certificate from a live brand project. Concrete, resume-ready proof of work.

Industry Network

Join a network of alumni at Amazon, Google, Adobe, Microsoft. Access exclusive hiring events and referral opportunities.

8 weeks. 8 modules. Infinite impact.

WEEK 1

Introduction to SAP Ecosystem and ABAP

- Discussion of Curriculum
- Introduction to SAP platform, including its products, people, partners, and customers that drive organizational data flow.
- Explore the SAP S/4HANA system architecture and development tools.
- Understand how SAP software helps organizations become intelligent and sustainable.

WEEK 2

Core ABAP Development and Strategic Thinking

- Learn to think strategically using design thinking and systems thinking to focus on customer problems.
- Practice writing basic ABAP programs using core data types and control structures.
- Use SAP GUI, Eclipse, and ADT for program development.
- Apply analytical tools to understand a customer's organization, processes, and technology.

WEEK 3

Modularization and Professional Communication

- Build reusable code using subroutines, function modules, and classes.
- Develop presentation and professional writing skills to create clear SAP project documentation.
- Use Microsoft suite tools to enhance professional communication.
- Master the use of internal tables within modularized logic.

8 weeks. 8 modules. Infinite impact.

WEEK 4

Project Management and Development Lifecycle

- Learn personal and project planning, including goal setting, task prioritization, and Work Breakdown Structures (WBS).
- Explore project frameworks such as Waterfall, Agile, DevOps, and Cloud-based approaches.
- Develop business acumen, political sensitivity, and cultural awareness to build effective consulting teams.
- Conduct assessments to track growth and ensure the learning outcomes are being met.

WEEK 5

Implementation Lifecycle and Module Pool Programming

- Navigate the implementation stages from customer engagement and discovery to design, deployment, and testing.
- UI Design: Learn the module pool approach for designing SAP GUI screens.
- Output Management: Walk through the development of Smart Forms for formatted business output.
- Accelerators: Introduce templates and tools designed to accelerate project work.

WEEK 6

Consulting Roles and ALV Reporting

- Understand the roles of functional consultants (focusing on industry processes) and technical consultants (focusing on code and specifications).
- Advanced Reporting: Build classical and Object-Oriented ALV (ABAP List Viewer) reports for data presentation.
- Product Strategy: Examine the SAP product strategy and how it transforms core business processes.

8 weeks. 8 modules. Infinite impact.

WEEK 7

Business Logic and Modern ABAP Syntax

- Work with Excel integration, background jobs, and performance debugging.
- Modern Syntax: Apply New ABAP 75 syntax and constructs used in modern enterprise applications.
- Domain Skills: Explore how specific functional and domain skills apply when working directly with customers.

WEEK 8

Practical Application and Final Assessment

- Research a real-life SAP implementation, analyzing the customer's organization, industry, and technology environment.
- Present findings via a summary or video to simulate a customer engagement.
- Participate in a feedback loop by reviewing other learners' submissions.
- Final assistance to help students achieve the course outcomes and certification readiness.
